# The Circulation of the DAILY APPEAL is larger than that of

the Daily City Press Combined.

THE MASON AND SLIDELL AP We have not yet had sufficient time to lear

the spirit in which the arrest of Mesars, MASO? and SLIDELL was received in England, but seems to be regarded by the Canada piess as dagrant insult to the British flag. A dispatch from Toronto, dated the 18th inst., says that the Globe and Leader-the two most influential jour nals in the province-both denounce the out rage with great severity, the former significantly suggesting that "it will add strength and digmity of the American government if the captiv are liberated without remoustrance from Great Britain," and the latter alleging that "it is a insult which the assuest government on th

earth would not submit to." As the regular readers of the APPEAL may b nown, we emeriain a doubt as to the legality the proceedure, when strictly judged by th principles of international law, and believe th British opinion will be quite equally divided o the subject. Yet the Canada papers, no doub reflect the true sentiments of the majority party and the London journals will probably re-extheir indignant protests. Nothing is more natu ral than that the people of that powerful nation schoore peculiarly froud of her queenly prestigupon the high sens, should look with Jealousy upon the slightest infraction of her maritime rights. The deepest indignation of the masses Is something that we may be prepared to witness, clothed, perhaps, with allequate remonstrances and threats, but the final action of the government, as prudentially and coolly calcula-I by a proper consideration of the results of being involved in foreign war, is entirely another thing. The voice of John Rull may, or Is may not be for war, but certainly we will hear

pretty loud bellowing from him. It is again left in doubt as to whether or not the capture of these gentlemen will be endorsed by LINCOLN'S cabinet. The New York Herald has stated, upon the authority of its Washington articless, that the act has been disavowed by the Falcral powers that be, but the National Intelligencer-which is now looked upon us a sort of communitiegran-in its issue of the 18th inst. watifies the whole affair, and attempts to show that it was fully authorized by the life of nations: "It is believed here," adds a Washington disposter. "that the article foreshadows the ground which will be taken by the State Department on this question." Nor is this improbable, as the enemy's government has manifested an evident determination to retain the commissioners, and the remonstrance, referred to by the Canada paper, shall come from beyond the Atlantic. I it should come to this complexion, we shall see if the Yankee boasters will make good their threat to thrash Great Britain at the same tim

they are "eredding" the rebellion. Our talegraphic dispatches this morning see to lookente considerable excitement at Washing ton me this subject. Land Lyons, the Britis Minister, is represented as denouncing the arrest and assuming that the Lincoln government wi certainly apologise for the outraget while Citasi and others pronounce it fully in accord array with the international code. "Many dipl man," it is further added, "including some miendly to the Federal government, express the opinion, unreservedly, that there will be war with England." Of the latter surmles, we are forced to believe, there is at least much doubt.

until the middle of next month or later. It appears that after PREMONT was superseded the murk on them ceased, owing to a stampede. among the mechanics, who refused to labor

contracts for their construction. But two gunboats were on the Ohio river in

service, the one at Cairo and the other Paducall—the same that have recently been paying

dom, Bird's Point, and even Springfield, (III.) were also to be dispatched to the same point.

The general talk among officers and men wa that the army at Caire was to be increased to over one hundred thousand strong before my advance movement is made on Columbus. The force there now is not over 15,000; that at Paducah about 8000; but reinforcements were going in very rapidly. The plan of the attack, it was whispered among the knowing ones would be to come down on both sides of the river simultaneously, and completely surround our army, cutting of communication and supplies from the south by both river and rail. Gen. GRANT'S wife, who went over with our informants in a boat to Paclucals on the 20th instant, alluded to this expedition, and said the ex-

pectation of her lumburd was that Columbus would be teleco, and that by May next the whole rebellion would be "wiped out."

Recruiting was going on very slowly all through the Northwest, only those volunteering who were forced by penuty to do so.

Pimmes were in a desperately had condition, provisions bringing little or nothing and money

goving spirt of opposition among the masses to the war.

THE LENGIN GOVERSMENT AND THE MIXE.

### LETTER FROM RICHMOND. [Special Correspondence of the Appeal.]

sident's Message-Its Effect at Hame and Abroad-Seward's Real Opinion about the Counties of Accounte and Northampton-Gen Floyd in Western Virginia-Rumored Death of Col. St. George Crophan-Rumored Removal of the Seat of Government to Naskville-Street

gers in Town-Fall of Soon. RICHMOND, November 30, 1861. The message of President Davis, submitted Congress yesterday, is a cheery note of enourngement to the Confederacy, and of resoute but becoming defiance to the enemy. In all respects it is an admirable paper. The style is plain and direct, the temper is excellent, and the spirit that azimates it lofty and heroic. The effect of such a message, strikingly in contrast as it is, with the pempons pronunciamentes of the Lincoln cabinet, must be eminently sulmary in Europe. If there is one passage in the document which more than all others echoes the prevailing sentiment of the Confederate States, it is ngly indignant at the outrage. The Toronto that which declares the utter impossibility of ilobe and Leader, as a dispatch from that city any reconstruction of the old detected Union the 18th alleges, both denounce the act with While the Northern cities are all ablane with great severity. In the language of the felegraph boutires and illuminations in honor of such little The Globe says it will add to the strength and successes, valued all the more for their rarity, as ignity of the American government if the cap- the Federal forces have recently obtained, while ives are liberated without remonstrance from the of the Washington despotism are proclaimthe meanest government on earth would not sub- and before the winter is over, and the suffering masses of the North are beguiling themselves The Democrat announces that Major-General with the delusion that their sorrows are soon to SALARCK, Commander-in-Chief of the Western terminate in an amspicious reopening of the partment, arrived in St. Louis on the 18th southern trade, the calm, determined assurance, ist.
